What is the real threat to personal safety in the US?

Be Proud of The Democratic Party

Democrats have a remarkable track record of bringing dramatic improvement to the world, and the people of the US.

The liberal international order built by FDR and Truman has done more to advance opportunity for the people of the world than perhaps any other set of policies in human history.

We are the heirs of this inspired vision, and of this extraordinary work. We must do more to honor it in our work each day.

Lean Into Our Extraordinary Legacy

Won WWII, Cold War – defeated Fascism, Communism

Fashioned current global order, Pax Americana

Helped build great post-war middle class

Fought/fighting the Civil Rights Movement

Established the social safety net

In new global age, made economy work for every day people

Nurtured what became the Internet

Finally Gave America national health insurance

Embraced “all of the above” 21st century energy paradigm
